SKILLS

- Cloud Computing (Intermediate)
- Cloud Architecture (Beginner/Novice)
- Google Cloud Platform (Intermediate)
- AWS (Beginner)
- Website Development (Intermediate)
- Java (Intermediate)
- Data Structures and Algorithms (Intermediate)

CERTIFICATES & COURSES

- Preparing for Google Cloud Certification: Cloud Engineer Specialization (Coursera)
- Google Cloud Digital Leader Training Specialization. (Coursera)
- AWS Services for Solutions Architect Associate. (Udemy)
- AWS Partner: Accreditation [Technical] (AWS)
- Develop and Deploying Windows Applications on Google Cloud (Coursera)
- Networking Essentials (CISCO)
- Cloud Core (IBM)
- Data Structures and Algorithm (Uppgrad)

LANGUAGES

- JAVA (Intermediate)
- HTML & CSS (Advanced)
- Javascript (Novice)

01 ABOUT ME

I am currently a Bachelor of Technology student from Maulana Abul Kalam University of Technology, pursuing my 3rd Year of the 4 year Degree course. I am currently focusing on Google Cloud Associate Cloud Engineer Certification and AWS Cloud Practitioner Certification apart from my college studies. I have a firm knowledge about GCP and AWS with more than 1 year of hands-on experience. I also have firm knowledge in cloud computing and architecture. Apart from it, I am well-versed with Data Structures and Algorithms. I find it exciting to solve coding problems using DSA and implement different algorithms. In short, I am a hardworking Student offering part-time work experience and extensive knowledge of core subject matter. I am meticulous and detail-oriented with excellent observational, organizational and communication skills.

02 EDUCATION

Bachelor of Technology

Maulana Abul Kalam Azad University of Technology
(2020 - 2024)

- Graduation in Computer Science and Engineering

Higher Secondary

Sudhir Memorial Institute (2018 - 2020)

- Academic excellence in Biological Sciences
- 88.6% of Marks

03 EXPERIENCE

F13 Technologies

AWS Cloud Intern

Jul 2022 - Oct 20

- Works closely with the AWS Cloud engineer and learning more about AWS services.
- Work on a group presentation to be delivered to senior leadership.
- Give ideas and thoughts about the architecture and troubleshooting

AWS CLOUD PROJECT BOOTCAMP

Cloud Engineer

Mar 2023 - Present

- Working to make an ephemeral micro-blogging app to make it production ready.
- Building the application using microservices architecture and AWS Cloud services
